EXPLANATION OF RELEVANCE

References AG-AL were identified in the International Search Report. These references are all in English, so no further commentary on their teaching is necessary. References AM-AP are German language articles, but their relevance is adequately discussed in the Specification. Finally, reference AQ, and English language article, is provided as background information.

The filing of the present Information Disclosure Statement is not to be construed as a representation that a search has been made, and is not to be construed as an admission that the information cited in the present Information Disclosure Statement is, or is considered to be, material to patentability as defined in 37 C.F.R. §1.56(b).

The above citation of prior art is not a representation that such art constitutes a complete or exhaustive listing of all pertinent prior art, nor that it necessarily includes the closest or most relevant art. The aforementioned citation comprises a voluntary citation of prior art of which applicant and his attorney are presently aware and is not intended to serve as a substitute for the Examiner's own search.
